Attendance:
Much like other purchases—you will find yourself responsible for the quality of your experience. My responsibility is to many students—I expect that if you want to know what this whole typography thing is about, you're going to show up on time—all the time. If you think this might not be the right time for this class consider doing this another time. If you are found absent more than twice you will be ineligible for an A grade. More than 3 times you would be ineligible for a C.

At Recitations:
The LA will be responsible for delivering a synopsis of the course. You will receive a handout.

You will pick up an assignment that you can perform during that period. Sign and place the assignment in the folder on your way out of the room.
Each recitation assignment is also an attendance mechanism.

If the recitation has a reading and discussion assignment. This Happens during the session and the text is read out loud with everyone present.
Each person reads one or two paragraphs.
Each person writes a 2 sentence synopsis.
by hand.

Each recitation has a practice which you can participate with as long as you please.
If it is a quiz the quiz can rerefer to any source. All quizzes are to be handed in before you leave.
The work you make must be handed in before you leave the room.

There are no late assignments for the recitations don't ask for extensions due to absence.
10 Assignments will be accepted of a possible 15 assignments during the semester.

MAJOR ASSIGNMENTS OF THE COURSE

MA ONE DUE 9/14

Hand Drawn Letters
Draw with some accuracy and fidelity the following letters, (ALL LETTERS) each in the sizes stated below (ALL SIZES), in three of the typefaces stated below. (CHOOSE 3.)

Provide a 2 sentence biography of the designers of any typefaces you choose.

MAJISCULE: CAPITAL: UPPERCASE:
B Q K Y
MINUSCULE: COMMON: LOWERCASE:
a g p y + any other vowel
NUMBER: NUMERAL:DIGIT:
any Number you choose
SIZES IN PTS. and PICAS
36 72 222 450 PTS / 25 PICAS
TYPEFACES
Bodoni Extra Bold Italic
Trade Gothic Condensed 20 (BOLD)
Baskerville Italic
Garamond Roman
Interstate Gothic
Futura Extra Bold

This assignment is to be performed during the recitation, and also where ever the student is most comfortable. During the recitation the LA will help guide research for the student group and general solutions for tools and expectations.

There are 150 Drawings which can be made into any artifact the student would like, a book, a poster, a stack of uncoordinated papers. Whatever.

MA TWO DUE 10/5

NUMBERS and Statistics
Pull 1 Statistic from each of the following:
Fin Tech - ***Financial Times***
(Online or Newspaper. Provide citation)
Op Ed. - ***New York Times***
(Online or Newspaper. Provide citation)
Sports - ***ESPN***
(TV, Provide photo citation)

Produce **(3) 4 Slide Decks** to sell any aspect of the research. Recreate a branded template for the author of each deck. Each deck is from a different author position. Pro/Con/Neutral.

This is an assignment at the intersection of speculative futures and storytelling using—more or less—accepted forms of source material and retold and cited for the purposes of promoting a favorable/unfavorable circumstance and the consequences that are in the truth of this 'fact'. Numbers are central to this work. **There must be a number story.**

Use AI at your own risk. AI errors are common, if the AI errors are present in your finished work. Your final grade for the assignment will drop by a full letter grade.

EXAMPLE:
A 4 Slide deck produced from a piece of information found in an ESPN report about the inbound trend of 'Leisurewear'. The statistic might support investment in a 'breathable textile startup'. The author might be a tech/textile company selling the investment opportunity. Located in Jaipur, Northern India. With more than one *technical fabric* in its portfolio.

MA THREE DUE 11/16

This Syllabus

Remake this Syllabus:

Attempt to communicate with clarity, with empathy for the student new to this type of inquiry, with sensitivity to how authority is passed from the document to the student and then to the LA with clear expectations of when and how and when to contact the instructor.

This is final assignment is due towards the end of the semester. One or two lucky students will get a live critique with the class. On our last full day together 11/16.

DETAILS:
The final text for this is in this PDF you can extract the text or ask one of the LAs for a text file that will give you unformatted copy.
Don't omit anything in the syllabus or the MA or the schedule.

Use the published academic calendar for the university. For the next semester.

2 MAJOR ASSIGNMENT OF THE COURSE

WITH LEARNING ASSISTANTS

Kira Warren
Zoe Cooper
Autumn Davis
Diya Mehta

MA TWO **DUE 10/5**

NUMBERS and Statistics
Pull 1 Statistic from each of the following:

Fin Tech - ***Financial Times***
(Online or Newspaper. Provide citation)
Op Ed. - ***New York Times***
(Online or Newspaper. Provide citation)
Sports - ***ESPN***
(TV, Provide photo citation)

When complete there will be 3 separate decks.

All narratives are factual.

There must be evidence to support any inference.

Upload the work to canvas.

Produce **(3) 4 Slide Decks** to sell any aspect of the research. Recreate a branded template for the author of each deck. Each deck is from a different author position. Pro/Con/Neutral.

This is an assignment at the intersection of speculative futures and storytelling using—more or less—accepted forms of source material and retold and cited for the purposes of promoting a favorable/unfavorable circumstance and the consequences that are in the truth of this 'fact'. Numbers are central to this work. **There must be a number story.**

Use AI at your own risk. AI errors are common, if the AI errors are present in your finished work. Your final grade for the assignment will drop by a full letter grade.

EXAMPLE:
A 4 Slide deck produced from a piece of information found in an ESPN report about the inbound trend of 'AthleisureWear'. The statistic might support investment in a 'breathable textile startup'. The author might be a tech/textile company selling the investment opportunity. Located in Jaipur, Northern India. With more than one *technical fabric* in its portfolio.

MA THREE **DUE 11/16**

This Syllabus

Remake this Syllabus:

With everything you have experienced thus far.
Remake this document for the next lucky students, who would take the course.

Communicate with clarity, with empathy for the student new to this type of inquiry, with sensitivity to how the authority in this document passes to the student and then to the LA with clear expectations of when and how to perform for the grade.

This is final assignment is due towards the end of the semester.
One or two lucky students will get a live critique with the class.
On our last full day together 11/16.

DETAILS:
The final text for this is in this PDF
you can extract the text or ask one of the LAs for a text file that will give you unformatted copy.
Don't omit anything in the syllabus or the MA or the schedule.

Use the published academic calendar for the university. For the next semester.

Make a website or a PDF as the final output.

Print the PDF.
DO NOT Print Web pages.

The document has to be editable.

Use as many pages as you wish.

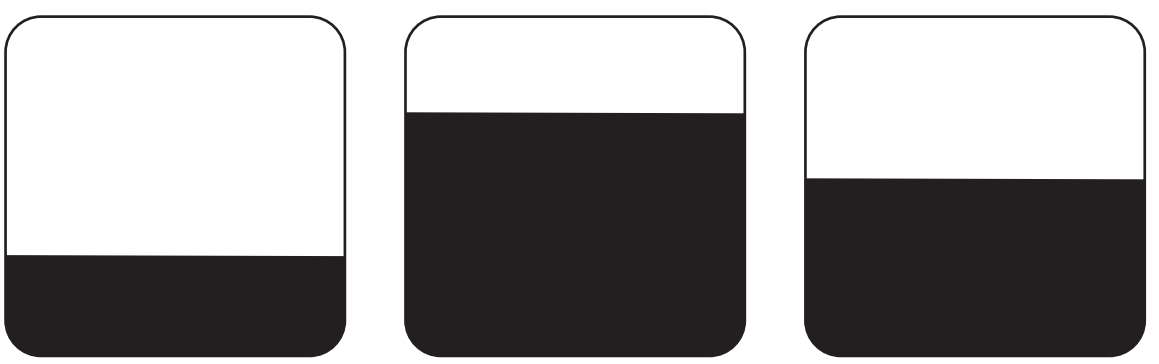

You may use a controversial or experimental approach as long as the output conforms all the conditions.
